PRESIDENT'S MESSAGE

Dear neighbors and friends:

As I write, the rain is falling -- again! I came from Panama to Albuquerque. They have 125 inches of rain there, and I was used to it. I am originally from Minnesota, and summer afternoon rains are normal, along with cyclones. When I came here and found the average rainfall to be just over eight inches per year I thought it would be a welcome change.

This is an abnormal year, of course, but you might know I would pick this year to build an addition on our house. Things seem constantly wet, and I tire of having to keep everything covered up.

Ah, but I love Albuquerque. Drove up into the Sandias last weekend, and it's cool and beautiful. If you haven't been there in a while, give it a try. It's great.

School is about to start -- Grace is beginning to vibrate. And she and most other teachers in our schools are working already to prepare for the year. Something folks don't take into account when they compute teachers' pay.

We're still looking for a few good people for our committees. Got some time? Give me a call: 897-1700. Love to hear from you.

Let's slow down our driving in the neighborhood. I've noticed a lot of speeders lately. With the children going back to school soon, we need to be more careful. Thanks.
